Should Fix:

## Leverage browser caching

Setting an expiry date or a maximum age in the HTTP headers for static resources instructs the browser to load previously downloaded resources from local disk rather than over the network.

[Leverage browser caching](#) for the following cacheable resources:

## Eliminate render-blocking JavaScript and CSS in above-the-fold content

Your page has 2 blocking script resources and 5 blocking CSS resources. This causes a delay in rendering your page.

None of the above-the-fold content on your page could be rendered without waiting for the following resources to load. Try to defer or asynchronously load blocking resources, or inline the critical portions of those resources directly in the HTML.

### [Remove render-blocking JavaScript:](#)

### Consider Fixing:

#### Minify CSS

Compacting CSS code can save many bytes of data and speed up download and parse times.

[Minify CSS](#) for the following resources to reduce their size by 246B (17% reduction).

- Minifying <https://finanzdienst.info/style/menu.css?13-1-8-23> could save 246B (17% reduction) after compression.

#### Minify JavaScript

Compacting JavaScript code can save many bytes of data and speed up downloading, parsing, and execution time.

[Minify JavaScript](#) for the following resources to reduce their size by 158B (15% reduction).

- Minifying <https://finanzdienst.info/res/x5settings.js?13-1-8-23> could save 158B (15% reduction) after compression.

#### Optimize images

Properly formatting and compressing images can save many bytes of data.

[Optimize the following images](#) to reduce their size by 27.9KiB (64% reduction).

## 70 / 100 User Experience

### Should Fix:

#### Configure the viewport

Your page specifies a fixed-width desktop viewport. Use a responsive viewport to allow your page to render properly on all devices.

[Configuring a viewport](#) specifying width=device-width instead of width=960 will allow your page to adapt for devices of various widths. This may require additional work to adapt your styling for smaller screens.

#### Use legible font sizes

The following text on your page renders in a way that may be difficult for some of your visitors to read. [Use legible font sizes](#) to provide a better user experience.

The following text fragments have a small font size. Increase the font size to make them more legible.

- Über uns renders only 5 pixels tall (13 CSS pixels) final.
- Leistungen and 2 others render only 5 pixels tall (13 CSS pixels) final.
- Über uns: renders only 6 pixels tall (16 CSS pixels) final.
- emb-Finanzdien...liendarlehen - and 1 others render only 6 pixels tall (16 CSS pixels) final.
- Wir erarbeiten...e Konditionen. and 5 others render only 6 pixels tall (16 CSS pixels) final.
- Datenschutz and 1 others render only 5 pixels tall (13 CSS pixels) final.
