Consider Fixing:

Leverage browser caching

Setting an expiry date or a maximum age in the HTTP headers for static resources instructs the browser to load previously downloaded resources from local disk rather than over the network.

[Leverage browser caching](#) for the following cacheable resources:

- <http://js.ptengine.com/pta.js> (5 minutes)
- <http://js.ptengine.com/pts.js> (5 minutes)
- <http://js.ptengine.jp/311de7ac.js> (5 minutes)

Minify HTML

Compacting HTML code, including any inline JavaScript and CSS contained in it, can save many bytes of data and speed up download and parse times.

[Minify HTML](#) for the following resources to reduce their size by 709B (15% reduction).

- Minifying <http://vandrandepinnar.nu/> could save 709B (15% reduction) after compression.

 Should Fix:

Configure the viewport

Mobile

Your page does not have a viewport specified. This causes mobile devices to render your page as it would appear on a desktop browser, scaling it down to fit on a mobile screen. Configure a viewport to allow your page to render properly on all devices.

[Configure a viewport](#) for this page.

Size content to viewport

The page content is too wide for the viewport, forcing the user to scroll horizontally. [Size the page content to the viewport](#) to provide a better user experience.

The page content is 1,031 CSS pixels wide, but the viewport is only 980 CSS pixels wide. The following elements fall outside the viewport:

- The element `<td></td>` falls outside the viewport.
- The element `` falls outside the viewport.
- The element `` falls outside the viewport.
- The element `` falls outside the viewport.
- The element `<h1>Om Vandrande p...r på Södermalm</h1>` falls outside the viewport.
- The element `<div></div>` falls outside the viewport.
- The element `2008 började v...ägg och ungar.` falls outside the viewport.
- The element `<div></div>` falls outside the viewport.
- The element `<h2>Stort intresse</h2>` falls outside the viewport.
- The element `När vår annons...sina nya hem.` falls outside the viewport.
- The element `` falls outside the viewport.
- The element `<h2>Lättskötta husjur</h2>` falls outside the viewport.
- The element `Det finns ca 2...när de kommer.` falls outside the viewport.
- The element `<div></div>` falls outside the viewport.
- The element `<h2>Fler arter</h2>` falls outside the viewport.
- The element `Så, med de ind...sor till salu.` falls outside the viewport.
- The element `<div></div>` falls outside the viewport.

Mobile

- The element `<div></div>` falls outside the viewport.
- The element `<div class="copyright">© Copyright 19...ghts Reserved.</div>` falls outside the viewport.
- The element `Kontakta oss!` falls outside the viewport.

Size tap targets appropriately

Some of the links/buttons on your webpage may be too small for a user to easily tap on a touchscreen. Consider [making these tap targets larger](#) to provide a better user experience.

The following tap targets are close to other nearby tap targets and may need additional spacing around them.

- The tap target `` and 16 others are close to other tap targets final.
- The tap target `Handla av oss!!` and 15 others are close to other tap targets.

Use legible font sizes

The following text on your page renders in a way that may be difficult for some of your visitors to read. [Use legible font sizes](#) to provide a better user experience.

The following text fragments have a small font size. Increase the font size to make them more legible.

- Om Vandrande p...r på Södermalm renders only 7 pixels tall (18 CSS pixels) final.
- 2008 började v...ägg och ungar. renders only 5 pixels tall (13 CSS pixels) final.
- Lättskötta husjur and 2 others render only 7 pixels tall (18 CSS pixels) final.
- Det finns ca 2...när de kommer. and 2 others render only 5 pixels tall (13 CSS pixels) final.
- © Copyright 19...ghts Reserved. renders only 4 pixels tall (10 CSS pixels).

Mobile

- |Om oss!!| and 30 others render only 4 pixels tall (10 CSS pixels).
- Burar och bostäder till salu!! and 14 others render only 4 pixels tall (10 CSS pixels).
